

**PawMedX®**  
COMPLETE NUTRITIONAL SUPPORT FOR ANIMALS

*HIGH POTENCY Professional Formula*

# OMEGA-3 COMPLETE CONCENTRATED EFA SUPPLEMENT

## PawMedX® Omega-3 Complete with high-dose EPA & DHA

PawMedX® Omega-3 Complete nutritional supplement provides your pet companion with a superior formulation of the most scientifically researched Omega-3 essential fatty acids to promote animal health. Its specialized formula is pesticide, herbicide and heavy metal free and provides a high value of DHA and EPA as compared to other products in the animal marketplace. While other Omega-3 products use inferior plant based Omega-3s, Pawmedx Omega-3 Complete uses Mercury-free, fish oil sources to provide the most active and scientifically researched Omega-3 essential fatty acids.

PawMedX® Omega-3 Complete offers a superior broad spectrum formula that contains high-potency DHA (Docosahexaenoic Acid) and EPA (Eicosapentaenoic Acid) as well as other Omega-3 Essential Fatty Acid nutrients.

This specialized formula does NOT contain binders, fillers and coatings needed in solid tablets which can cause allergies and sensitivity, and which slow down the absorption process. Its concentrated formula provides a simple, single dose for daily use.

### OMEGA-3 COMPLETE SUPPORTS:

- Joints and ligaments
- Healthy coat, skin and joints
- Healthy temperament and mood
- Heart and blood vessels
- Vision and tracking
- Mental focus and concentration
- Scenting

## Founded in Science

PawMedX® Professional Strength Omega-3 Complete for Animals provides ingredients and dosages based on clinical research studies. This synergistic blend is designed to create an environment within the pet to help promote overall health. Research supported use of the following key ingredients have demonstrated effectiveness in optimizing the health of your pet:

### Joint/Immune Support

Omega-3 fatty acids, especially EPA, support joint health in the body. Due to their impact on lipid membranes, they also promote normal and healthy balance for immune pathways and responses.

### Pure and Potent Essential Fatty Acids

- Safe • Highest Quality • Effective

### Health Features of PawMedX Complete Omega-3:

- 100% Natural fish oil sources
- High potency EPA & DHA
- Guaranteed Safety
- No pesticides
- No herbicides
- No heavy metals
- No mercury

## Vision Support

The Omega-3s EPA and DHA have been found to help support the health of the macula and retina of the eye. In addition, support of healthy and normal lubrication of ocular structures has been indicated.

## Cardiovascular Support

Research shows that consumption of EPA and DHA Omega-3 fatty acids supports a healthy heart and blood vessel support.

## Brain/Neurologic Support

The support of cognitive function and neurologic health by the Omega-3 fatty acids EPA and DHA is supported in multiple research studies. In addition, Omega-3 fatty acids have been shown to support the health of mood, emotion and temperament.

## Our Commitment: SAFETY & QUALITY

PawMedX is dedicated to providing the highest level of quality nutrition for your pet. The ingredients used in this product are human grade and have been tested for purity:

- Safety testing for pesticides, herbicides, heavy metals, toxins and contaminants with standard micro organism analysis including bacterias, yeasts, molds and pathogens.
- Full Nutrient Analysis and label claims testing.
- On-site GMP manufacturing in state-of-the art nutraceutical facility. FDA and USDA inspected.

## The Value of Omega-3 EFAs

Essential Fatty Acids (EFAs) are beneficial fats that are required by the body for proper function and health. EFAs are not made by the body and must be supplied in the diet. Without them, the body cannot be healthy.

Every team has its "Most Valuable Players," and when it comes to the Omega-3 Team, EPA and DHA are MVPs. EPA and DHA are the two most studied derivatives of the beneficial Omega-3 fatty acids. EPA and DHA are recognized by the scientific community as critical in providing the majority of health benefits associated with Omega-3s. Although products tout the health benefits of Omega-3s, some are relatively low in the most important ones: EPA and DHA.

- Remember, the two prime Omega-3s that are most important to health are EPA and DHA.
- EPA and DHA are virtually absent in vegetable sources of Omega-3s.
- To obtain EPA and DHA in substantial quantities, we must turn to marine (fish) sources.
- PawMedX Omega-3 Complete is guaranteed ultra-pure and free of environmental contaminants.

# OMEGA-3 COMPLETE

## PROFESSIONAL FORMULA

### nutritional supplement

#### ACTIVE INGREDIENTS Per 1 Softgel:

Total Omega-3 Fatty Acid	1,000 mg
Eicosapentaenoic Acid (EPA)	} 300 mg
Docosahexaenoic Acid (DHA)	
Other Omega-3s	700 mg

**INACTIVE INGREDIENTS:** Purified water, gelatin, oopherols (antioxidants), glycerol (humectant).

Body Weight	Daily Dosage
Under 30 lbs	1 Capsule
